## ASCO Versatile Angle Body Piston Valves

The ASCO 8290 Series is suitable for general service air, inert gas, oil and light slurry applications as well as steam and hot water. The 8290 Series consists of 2-way direct acting valves available in normally closed or normally open constructions. Built for demanding applications, these valves come in a straight-through body design made of bronze or stainless steel. Many optional features are available, including visual/electrical position indicator or a stroke limiter. The 8290 Series is offered in pipe sizes from 3/8" to 2-1/2" NPT. The valve can operate at fluid pressures up to 240 psi, and to 150 psi for steam applications.

## Monnier Air Prep Products

### New Additions to Product Line

Monnier introduces two new families of products to augment the existing line of Monnier air preparation products. Designed with the user in mind, 108-1000 Regulators and the B05-1000 Integral Filter/Regulators are available in 1/4", 3/8" and 1/2" NPT or BSPP ports and offer convenient push-to-lock knob design. Push the knob down to lock in the desired pressure or pull the knob up to adjust. Knob and bonnet are constructed of heavy duty acetal and glass filled acetal. Mounting nut comes standard on all units for ease of installation. Two pressure ranges are available: 0-50 psig and 0-150 psig.

## 2012 Calendars

O'Keefe Controls offers two calendars for the upcoming year. Both appointment calendars feature handy date blocks for note-taking and 12 wonderful color photos. Please choose the one that matches your interests best – Antique Cars or Trains – and enjoy a year's worth of fascinating photos.

## NOSHOK Voltage Output Pressure Transducers

NOSHOK 200 Series Voltage Output Pressure Transducers are designed to provide a previously unequalled level of performance, utilizing diffused semiconductor and sputtered thin film strain gage technology. 200 Series transducers are highly repeatable, shock resistant and are extremely stable over long periods of time. CE compliance, which includes substantial levels of RFI, EMI and ESD noise protection combined with reverse polarity and over-voltage protection hardens the product so it performs well in the most demanding applications. Advanced manufacturing techniques combined with technologically advanced standard features allow NOSHOK to offer a level of performance previously found only on transducers costing hundreds of dollars more.

*Request/download NOSHOK 200 Series Brochure*

## Gems High Precision Magnetostrictive Level Sensors

Gems Sensors' XT-1000 series offers a line of robust, stainless steel sensors with highly accurate continuous level measurement in lengths from 8 inches to over 13 feet. The XT-1000 measures liquid media levels using the complete probe length and is largely unaffected by temperature. The sensor offers constant sensing of fluid level regardless of the physical state of the media including: bubbles, foam, condensation, precipitation, pressure, temperature or changes in density. The 4-20mA sensor is compatible with a variety of tank dimensions and offers an explosion-proof version for installation in potentially explosive atmospheres where electrical equipment of category 1 (zone 0) or category 1/2 (zone 0/1) are required.

# WHAT'S NEW

AT  
O'KEEFE  
CONTROLS CO.

4th Quarter 2011

SPECIALISTS IN  
VALVES • CONTROLS  
PNEUMATICS  
FLUID MEASUREMENT

## O'Keefe Controls Co.

O'Keefe Controls Co. specializes in valves, controls, pneumatics and fluid measurement. We are stocking distributors for the finest manufacturers in the business. May we be of service? Just call. We have the technical expertise to select the right units for your applications.

### We Proudly Distribute:

- ASCO – *Valves & Pressure/Temp Switches*
- ASCO Power Technologies –  
*Remote Control & Transfer Switches*
- Dwyer – *Instruments & Controls*
- Dynamco – *Air Logic & Valves*
- Ellis-Kuhnke – *Pneumatic Timers*
- Fairchild – *Precision Pneumatics*
- FlairLine – *Air Cylinders*
- Flow Lin – *Orifice Plates/Venturi Tubes*
- Gems Sensors – *Level, Flow & Pressure Sensors*
- Hedland – *Flow Rate Meters*
- Joucomatic/ASCO – *Pneumatic Valves*
- Kuhnke – *Pneumatic & Electric Controls*
- Love Controls – *Temperature/Process Controls*
- Microswitch – *Industrial Switches & Sensors*
- Monnier – *Filters, Regulators, Lubricators*
- National Basic Sensor – *Thermocouples, RTDs & Thermowells*
- Neptune – *Flow Totalizers*
- NOSHOK – *Pressure Gages/Transducers*
- Numatics – *Fittings, Flow Controls, Mufflers & FRLs*
- SeaMetrics – *Liquid Flow Measurement*
- SMC – *Fittings*
- Taylor – *Temperature Instruments*
- Warrick – *Conductivity Level Sensors & Controls*
- Watts/Contromatics – *Ball/Butterfly Valves & Actuators*
- Wilkerson – *Air Regulators, Filters*

**Catalogs free on request** for any of the above manufacturers' products. Call (203) 261-6711.  
Fax: (203) 261-8331 • e-mail: ws@okeefecontrols.com
